

Carnauba Wax Flakes

- Hard natural vegetable wax
- Mix with other waxes to produce furniture polish
- Melt down and pour into blocks for use on lathe work

Product use

Liberon Carnauba Wax is a very hard natural wax which has a variety of uses, including adding to Liberon Purified Beeswax for making furniture polish to give a high gloss sheen. It can also be used for making wood turning sticks.

Application

To make wood turning sticks melt the Carnauba wax, pour into moulds and allow to cool before use.

Precautions

- Carnauba Wax melts only at very high temperatures.

Packaging

Carnauba Wax is available in 250 g and 1 Kg packs.
