Product use

Liberon Liquid Furniture Wax is ideal for nourishing and protecting all types of wooden furniture and interior woodwork. It is particularly suitable for large surfaces such as panelling, doors and staircases. Liberon Liquid Furniture Wax will enhance the natural beauty of new wood, whilst also protecting it against dryness and everyday usage.

Preparation

Remove old waxes and dirt with Liberon Wax and Polish Remover if necessary. Ensure the surface is clean, dry and free from dust.

Application

Shake well before use. Apply Liquid Furniture Wax sparingly with a cloth, brush or spray gun. Allow to become touch dry in approximately 30 minutes, then buff with a clean cotton cloth, Liberon Wax Polishing Brush or Liberon Drill Brush. Repeat the operation on new or very dry wood as it may require two or more coats. For an improved finish apply thin coats of wax and build-up to the desired level of sheen, buffing between coats.

Important

Always test product on a spare surface or inconspicuous area for colour, compatibility and end result.

Cleaning and maintenance

Wipe over with a cloth or duster and re-wax as required, when the surface looks dull and tired. Do not wash with water.

Precautions

- Not suitable for high water areas such as kitchens and bathrooms.
- We recommend the use of Liberon oils or varnishes in these areas.

Health and Safety

Contains aliphatic hydrocarbons and turpentine. Flammable. May cause skin sensitisation by skin contact. Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. Harmful: may cause lung damage if swallowed. Repeated exposure may cause skin dryness or cracking. Keep out of the reach of children. Avoid contact with skin. Do not empty into drains. Wear suitable gloves. Use only in well-ventilated areas. If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

Packaging

Furniture Wax is available in 500ml.
