## Product use

Liberon Furniture Wax is ideal for nourishing and protecting all types of wooden furniture, including lacquers and French polishes. It helps to prevent finger and water marks and is suitable for use on both antique and modern furniture items. Liberon Furniture Wax will enhance the natural beauty of the wood, whilst also protecting it against dryness and everyday usage.

## Preparation

Remove old waxes and dirt with Liberon Wax and Polish Remover if necessary. Ensure the surface is clean, dry and free from dust.

## Application

Apply Furniture Wax sparingly with a cloth on a delicate (i.e. French polished) surface or with Liberon Ultra Fine Steel Wool (grade 0000) when a deeper penetration is required. Allow to dry for 20 minutes, or until touch dry, and then buff with a clean cotton cloth or furniture brush.

Repeat the operation on new or very dry wood as it may require two or more coats. For an improved finish buff with a Liberon Furniture Brush once the last coat has dried. For a higher sheen build-up with thin coats of Furniture Wax, buffing between coats.

## Important

Always test product on a spare surface or inconspicuous area for colour, compatibility and end result.

## Cleaning and maintenance

Wipe over with a cloth or duster and re-wax as required, when the surface looks dull and tired. Do not wash with water.

## Precautions

- Not suitable for high water areas such as kitchens and bathrooms. We recommend the use of Liberon oils or varnishes in these areas.

## Health and Safety

Flammable. Repeated exposure may cause skin dryness or cracking. Keep out of the reach of children. Do not empty into drains. Use only in well-ventilated areas. If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

## Packaging

Furniture Wax is available in 150ml
